International Conference on Energy Efficiency in Motor Driven Systems (EEMODS)

Following the success of the EEMODS Conferences in Lisbon (1996), London (1999), Treviso (2002), Heidelberg (2005), Beijing (2007), Nantes (2009), Washington D.C (2011), and Rio de Janeiro, RJ (2013)

Motiva Services Ltd with the scientific and technical support of the European Commission Joint Research Centre, Institute for Energy and Transport ABB - a global supplier in power and automation technologies, are organizing the 9th International Conference on Energy Efficiency in Motor Driven Systems (EEMODS). The Conference will be held in Helsinki (Finland) on September 15 - 17, 2015.

The three-day conference will include plenary sessions where key representatives of governments and international organizations, manufacturers, programme managers and experts will present their views and programmes to advance energy efficiency in motor systems, for example, through international co-operation on efficiency requirements. Parallel sessions on specific themes and topics will allow in-depth discussions among participants.
